# MozOut or Registar: comparison and which to choose in Mozambique

Hosting Providers Compared Created on **August 16, 2026** Updated on **October 22, 2026** 4 min read

By the MozOut editorial team · Updated 15 October 2026 · Data from the providers' public pages, consulted in October 2026.

Registar is a Mozambican company focused on domains and hosting. One useful note before comparing: it uses *mozdomains.com* nameservers, which indicates both brands belong to the same company.

Both are local providers, both sell hosting and domains. The short answer: **on the basics they are similar**, and the choice comes down to three or four details. Let us go through them one by one.

## Hosting and panel

1. **MozOut** - **cPanel** on Linux hosting and **Plesk** on Windows hosting, with CloudLinux, free SSL and Imunify360. Clear per-account limits - that is what stops a neighbour's site ruining your day.
2. **Registar** - Advertises **LiteSpeed**, free SSL and WordPress.

## Domains

1. **MozOut** - **.mz registered with CIUEM** by us, with a **DNS manager in the panel** and nameserver changes you make yourself, at any hour.
2. **Registar** - Registers **.mz** - level with us here.

## How you pay

1. **MozOut** - **Meticais**, with a local invoice your accountant accepts.

2 **Registar** - Shows prices in **meticais** and dollars.

## Backups

1 **MozOut** - **Every night before dawn, kept for a year**, restored through JetBackup from the panel.

2 **Registar** - Advertises **daily backups**. The page does not state retention - on our side, the nightly copies are kept for **a year**.

## Customer support

1 **MozOut** - **WhatsApp, panel ticket and e-mail 24 hours a day**, plus **phone calls from 08:00 to 16:00** - all in Portuguese, with a written record of everything asked and done kept in the panel.

2 **Registar** - Advertises **24/7** and phone. It also advertises a **money-back guarantee**, which is uncommon in this market and a point in their favour.

## For companies: VPS and reseller

1 **MozOut** - VPS, Cloud, dedicated and reseller. Servers are **unmanaged** by default - delivered with the OS and full access.

2 **Registar** - Has **VPS**.

## Main differences

| | MozOut | Registar |
|---|---|---|
| **Panel** | cPanel (Linux) and Plesk (Windows), with CloudLinux and Imunify360 | Advertises LiteSpeed, free SSL and WordPress. |
| **National domain** | .mz with CIUEM | Registers .mz - level with us here. |
| **Currency** | Meticais, with a local invoice | Shows prices in meticais and dollars. |
| **Backups** | Nightly, kept 1 year, self-service restore | Advertises daily backups. |
| **Support** | WhatsApp, ticket and e-mail 24h; phone 08:00-16:00 | Advertises 24/7 and phone. |

## Where Registar is strong

The **money-back guarantee** is their strongest argument: it lets you try without risk. If you are undecided and want to test before committing, starting there is perfectly reasonable.

## Why we recommend MozOut

If you want **everything in one place and in local currency**: national domain, hosting, e-mail and invoice on one account. We are among the few who state in writing **how long backups are kept** - one year - and let you **restore them yourself** from the panel, with no ticket and no waiting. Add **CloudLinux**, which stops a neighbour's site ruining your performance, **Imunify360** against malicious code, **free SSL that renews itself**, **free migration of your current site**, **free .mz transfers**, over **100 domain extensions** and one-click WordPress.

**Entry price:** the **Pro Hosting** plan starts at **MT 600/month (7,200 a year), with SSL, backups and cPanel included.** ***Price current in August 2026 - check the store for today's figure.***

**In short.**
For a business in Mozambique - with a national domain, an invoice in local currency and someone who answers any hour by WhatsApp, ticket or e-mail - **MozOut** is the choice we recommend. And if you ever change your mind, you take everything with you, with no fee.

**The test worth more than this article.**
Before deciding, send a technical question to both support teams and compare how long they take and how good the answer is. That applies to them and to us - it is how you judge a provider.

Comparison drawn from each provider's public pages in August 2026. We did not test their services, and the information may have changed since. If you spot anything out of date, tell us and we will correct it.
