Business SMS by sector: retail, clinics, schools, deliveries and more, with example messages

SEO & Marketing Created on **November 10, 2026** 4 min read

The short answer: almost every business has notices its customers are glad to get by SMS: an order that is ready, tomorrow's appointment, a parents' meeting, a delivery on its way. Below you will find examples by sector, ready to copy. The SMS page in My MozOut also has a library of 105 templates organised into 15 lines of business; see **SMS templates and AI**.

In the examples, the parts in square brackets, such as [COMPANY], [PHONE] or [DATE], are there for you to replace with your own details before sending. Always open with your company name and leave a contact: named senders cannot receive replies.

Before you use these examples

1. **Keep notices and promotions apart.** Notices go to people who have a relationship with you; promotions only to those who agreed to receive them. See **who you may send to**.

2. **Count the parts.** Letters such as ã, ç or á reduce the characters per part. See **how many credits an SMS uses**.

3. **Test on your own number** before sending to a list or group.
